

FORT BEND COUNTY MUNICIPAL UTILITY DISTRICT NO. 5

District Map

Why is it necessary to do these projects?

Since the inception of the District, an interim wastewater treatment plant has been in use with the intention of eventually constructing a permanent facility. The need for a permanent wastewater treatment plant has become more pressing over time. Due to inflation and evolving agency regulations, both the necessity and cost of this project have increased significantly. Additionally, changes in detention requirements following Hurricane Harvey have increased the costs of detention and drainage facilities.
